Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The amendment filed on 8-17-2004 and response filed on 5-20-2004 are acknowledged. Claim 1 has been amended. Claim 20 has been canceled. Claims 1-5 and 7-19 are pending and currently under examination.

Claim Rejections Withdrawn

The rejection of claims 1-5, 7-12 and 14-20 under 35 U.S.C. 103(a) as being unpatentable over Shanbrom (EP 0 083 999) in view of Shanbrom (U.S. Patent 4,315,919) is withdrawn in light of the amendment thereto. The cited references do not render obvious all the limitations of the instant claims. However, it should be noted that the aforementioned amendment is deemed to constitute new matter (see below) and that this rejection may be reinstated upon the resolution of the new matter issue.

New Grounds of Rejection

35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-5 and 7-19 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

Art Unit: 1645

Applicant has amended claim 1 to recite, “without adversely affecting the properties of the drug or vaccine including its ability to be retained by a filter...”. This phrase does not appear in the specification, or original claims as filed. Applicant does not point out specific basis for this limitation in the application, and none is apparent. Therefore this limitation is new matter.

Claims 1-5 and 7-19 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

Applicant has amended claim 1 to recite “and wherein the amount of ionic surfactant remaining in said solution is less than 0.01%...”. This phrase does not appear in the specification, or original claims as filed. Applicant does not point out specific basis for this limitation in the application, and none is apparent. Therefore this limitation is new matter.

Claims 1-5 and 7-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rendered vague and indefinite by the use of the phrase “without adversely affecting the properties of the drug or vaccine including its ability to be retained by a filter...”. It is unclear what “properties” Applicant is referring to. Moreover, it is unclear what criteria are used to determine if a given change in a given property is “adverse”. Consequently, it is impossible to determine the metes and bounds of the claimed invention.
